Frameless Series is an LED ultra-thin recessed downlight ideal for shallow ceiling plenum applications. Quality, housing-free recessed downlighting is achieved with its narrow body. The Frameless Series is quick and simple to install from below the ceiling with as little as 2-inch plenum clearance.

The Frameless Series offers a wide range of sizes, wattages, shapes (round and square) pairing with most of the applications, making Frameless Series a favorite among designers and architects.

Frameless Series offer a quality alternative to meet reliability and performance specifications on budget-sensitive residential or commercial projects. At the entry-level, The Frameless Series offer excellent value All-in-one unit, and is ready to install right out of box.

The Frameless Series innovative, slim design allows for easy retrofit, remodel or new construction installation from below the ceiling. The Frameless Series downlight it ideal for use in a breadth of residential, hospitality, commercial and multifamily applications.
